***Useful items for Home & Garden***

Lots of useful products for home and garden!

USEFUL PRODUCTS FOR

# HOME & GARDEN

## ULTRASONIC MARTEN DEFENCE

- Protects your cars by repelling animals with ultrasound and light
- Simple attachment using straps and cable ties
- Low power consumption = long battery life
- Automatic standby mode while driving
- Fixed frequency or automatic frequency change

Item no. 34831

## RACCOON TRAP 100X30X30CM

Protect your home and garden with our escape-proof raccoon trap! This high-quality trap was specially developed to catch raccoons safely. Special flaps prevent escape attempts.

Item no. 381297022003030

## FROST PROTECTION HEATING CABLE

### HEATING CABLE WITH THERMOSTAT (230 V)

With heating cables in various lengths, horizont offers a versatile solution for different areas of application. Depending on the area of application, a short or even very long heating cable is required so that frozen water pipes, for example, that's all history!

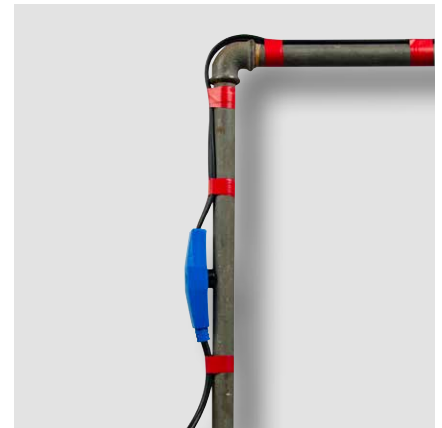

With the built-in thermostat, the cable switches on automatically at +3 °C and switches off at +13 °C, thus keeping the water pipes frost-free. With additional insulation, temperatures of up to -45 °C can be withstood.

The heating cable is very easy to install. The cable is attached to water pipes or gutters with adhesive tape, then just connect the safety plug and you're done! When used in stables, the cable must be protected from being bitten by animals.

Now available in many lengths!

1 m (17 watts)	Item no. <b>34254</b>
2 m (32 watts)	Item no. <b>34255</b>

### EXPLORER HEAD TORCH

The Explorer head torch is the ideal companion for anyone who needs reliable lighting and wants to keep hands free. Perfect for use in the stable, in the garden or in the workshop.

- COB LED strip light & XPE LED sidelight
- 5 lighting modes for all requirements
- Maximum light output of 350 lumens
- Contactless sensor control
- Running time up to 2.5 hours
- Fast USB charging in just 2.5 hours

Item no. **47L350**

EVERYTHING FOR

# HOBBY POULTRY FARMERS

## COLOURFUL EYE-CATCHERS IN THE HENHOUSE

Our poultry drinkers and feeders are the ideal choice for hobby poultry farmers who are looking for a practical and durable solution for feeding their poultry. Ensure the well-being of your animals and make daily care easier. Our modern drinkers and feeders with their amusing motifs not only bring fresh water and feed into the henhouse, but also a good mood and a smile on every face!

### POULTRY DRINKER CHIPS

- Effective protection against soiling thanks to protective cone and feet
- Colourful design: Brings colour into the barn and is a real eye-catcher
- Transparent plastic with scale
- With a capacity of 5 litres, it is ideal for up to 6 chickens

Item no. 34826

### POULTRY FEEDER CHIPS

- Transparent container with scale
- Colourful design: Brings colour into the barn and is a real eye-catcher
- Hygienic thanks to raised legs
- With a capacity of 4 kg, it is suitable for up to 6 chickens

Item no. 34826

# **SUSTAINABILITY WITH RECYCLED PLASTIC**

## **POULTRY FEEDER / RECYCLED PLASTIC / 4 KG**

- Environmentally friendly: Made from recycled plastic - a sustainable choice for your chicken coop
- Practical design: The clever design makes filling easier and ensures a stable installation
- Compact and powerful: With a capacity of 4 kg, it reliably supplies up to 6 chickens
- Unique appearance: The recycled material makes each feeder unique and colourful

Item no. **38509200004**

## **POULTRY DRINKER RECYCLED PLASTIC / 5 LITRES**

- Focus on sustainability: This drinker is made entirely from recycled material and thus makes an active contribution to environmental protection
- Practical design: The clever design enables easy filling and ensures a stable stand
- Suitable for your chicken run: With a capacity of 5 litres, it is ideal for up to 6 chickens

Item no. **38510009105**

## **NESTING EGGS FOR CHICKENS / RUBBER / 3 PIECES**

- Size: 5.3 cm x 4 cm
- Weight: 56 g per egg
- Material: High-quality and durable rubber
- Packaging: Practical set of 3 in a cardboard box

Item no. **38520003003**

**DISCOVER THE FREEDOM OF GRAZING WITH OUR ROBUST PORTABLE ELECTRIC FENCE ENERGISER!**

Our sturdy polycarbonate case system with two robust handles contains everything you need: A fence energiser, a battery, fence and ground connection material, a ground stake and a warning sign. The glass solar panel is firmly embedded in the lid.

The unit requires no assembly and can be operated immediately using the ground stake supplied. To make optimum use of the sunlight the energiser can be supported with a special metal pole (not included in the scope of delivery) and optimally positioned on the pasture to optimise the use of solar radiation.

You do not need to open the case to switch the energiser on or off or to get an overview of the operating status. Thanks to the external stainless steel switch with integrated LED display, you can always keep an eye on the status of your appliance.

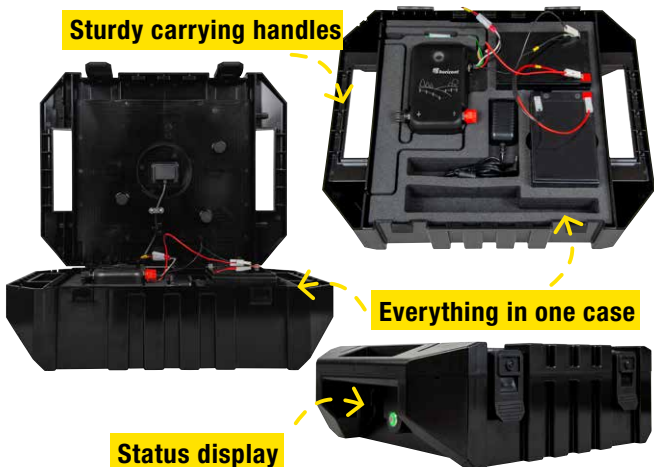

Thanks to the integrated 15 watt glass solar module embedded in the cover, you are independent of power sources and can secure your fence anytime and anywhere - completely environmentally friendly! Drainage

channels in the appliance reduce the formation of waterlogging or ice.

Practical and helpful: The required accessories, consisting of a ground stake and fence and ground connection cables, can be conveniently stored in the case. There is also a space for the power supply unit so that the energiser can be powered from 230 V mains supply (Power supply unit not included in the scope of delivery).

The solar energiser can be used with all types of conductors and electric fence netting to herd sheep, goats, poultry, pigs, cattle and horses.

Versatile and powerful: The energiser is supplied with a powerful battery and can be extended with a second battery if required to ensure a reliable power supply. Thanks to the power-saving circuit, the battery is optimally utilised and the deep discharge protection also ensures a long service life.

## RANGER® VOLTMETER DUAL DIGITAL

Check the safety of your electric fences with our new voltmeter! With this practical fence tester, you can easily measure the fence voltage at any point on your fence system or check the output voltage directly on the electric fence energiser.

Our fence tester also offers the option of measuring the voltage of 9 and 12 V batteries so that you always have an overview of the power supply to your energiser. The measured values are displayed clearly and precisely with one decimal place - the voltage of the fences in kilovolts (kV) and that of the batteries in volts (V).

The fence tester is powered by a 9 V block battery, which is included in the scope of delivery. Thanks to the practical automatic function, the device switches itself 'on' and 'off', which guarantees easy handling and a long battery life.

Item no. 14589

## LUDA FENCE ALARM 2

The FenceAlarm2 is the further development of a proven system for monitoring fences. With modern LTE-M technology, the benefits of 4G and 5G networks are fully utilised. This system ensures future-proof connectivity and allows you to check the status of your fence at any time via the My.Luda.Farm app.

Item no. 38LUD1137

# HORIZONT T-POST ECO | METAL POST

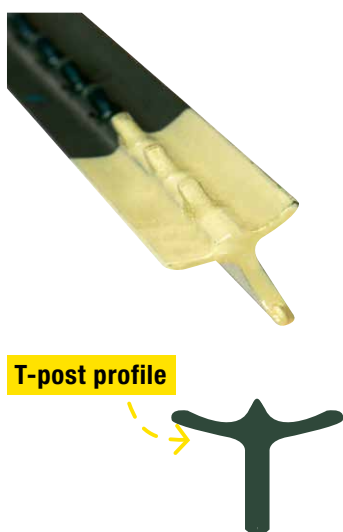

1.52 m | 1.67 m | 1.82 m

Our T-post ECO model is the durable and stable alternative to wooden posts. Made of rail steel, with an environmentally friendly, high-quality dip coating for surface protection, it is ideal for farmers and livestock owners.

Versatile application options: Thanks to its slim T-profile and the solid anchor plate, the post ECO can be driven into the ground effortlessly with a hand ram up to the long base plate, which ensures extremely high stability.

The posts are ideal for erecting wolf-repellent fences.

The post can be used flexibly as a corner, section, gate, start or end post and therefore offers the right solution for every situation.

# THE INTELLIGENT SURVEILLANCE CAMERAS

Our high-resolution HD cameras set new standards. horizon presents an innovative range, customised for monitoring buildings, people and animals.

## NIGHT VISION IN COLOUR

Enjoy high quality color images around the clock 24/7. ColorVu technology gives you high-quality color images day and night. The Vision Colour camera offers this feature.

## ACUSENSE

AcuSense technology uses integrated deep learning technology to quickly and intelligently detect what is on the screen. With high reliability, it determines whether a person or vehicle is passing through the monitored area. This avoids false alarms.

Detect Observe Recognise Identify

## DORI System

“DORI stands for Detect-Observe-Recognise-Identify. This standard helps you evaluate and compare the performance of surveillance cameras at a glance. It specifies how far the range is for a given resolution.

## HORIZONT-LIVE APP

Use the horizon-Live app to stream live video from your cameras to your screen or smartphone.

- ✓ Uncomplicated and intuitive
- ✓ Intruder alarm
- ✓ Control from the road
- ✓ Live streaming
- ✓ Simple system administration

**Night vision in colour****Vision Colour**
