POWER SOLUTIONS FOR THE PASTURE

Discover our new mains energisers now:
Powerful, reliable and excellent value for money!

EVEN MORE CONDUCTIVE

Many of our electric fence nets now
benefit from improved conductivity.

EVERYTHING FOR HOBBY FARMING

Discover our new products for poultry farming,
small animal husbandry and gardening.

POWERFUL

ENERGISERS

POWERFUL MAINS ENERGISERS FOR PASTURE FENCING

The farmer® N3000 and N5000 are the ideal energisers for all farmers and livestock owners who are looking for powerful, durable, and competitively priced energisers. Whether for horses, cattle, sheep, pigs or game, these 230 V mains energisers can handle any challenge on medium to large fencing systems. A particularly noteworthy feature is the integrated surge protection, which reliably protects the energisers from voltage spikes and lightning damage – an additional plus in terms of safety and durability.

Turning on and off

Practical and user-friendly

Simple wall mounting

Suspension devices on the rear for vertical or horizontal mounting

Strong performance at a low price

Powerful, reliable and particularly economical to operate

farmer® N3000

- 4 joules input
- 3 joules output
- 13,400 volts max. voltage

Item No. 10968

farmer® N5000

- 6,9 joules input
- 5 joules output
- 14,000 volts max. voltage

Item No. 10969

OUR ALL-IN-ONE SYSTEMS

The high-quality solar panel is integrated into the housing of the ranger® AS1000SC and AS1800SC polycarbonate energiser systems. This means that you get all the components you need to electrify your electric fence in one compact case: a solar panel integrated into the case lid, an energiser, a rechargeable battery, fence and earth connection material, an earth stake and a warning sign.

ranger® AS1000SC

- 1.3 joules input
- 1 joules output
- 10,600 V max. voltage
- Including lead-fleece battery 12 V / 12 Ah (item no. 15842)

Item No. **10893**

ranger® AS1800SC

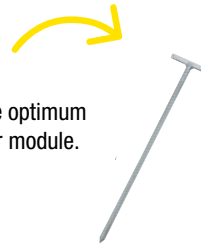

- 2.4 joules input
- 1.8 joules output
- 10,800 V max. voltage
- Including lead-fleece battery 12 V / 12 Ah (item no. 15842)

Item No. **10894**

Optimal alignment

Metal post with bracket for the optimum angle of inclination of the solar module.

Double duration

The case is designed to accommodate a second battery.

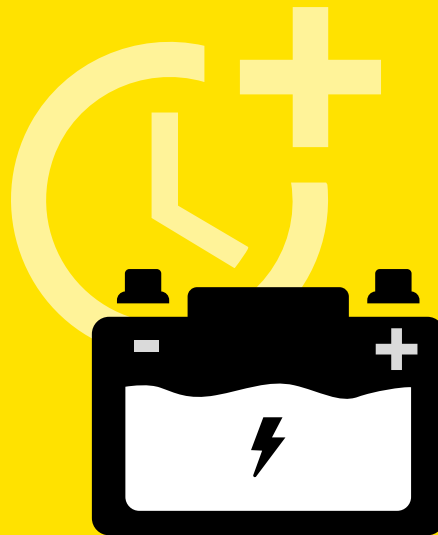

Flexibility

If required, the energiser can be operated from the mains. The case is designed to accommodate a power supply unit.

ENHANCED BATTERY LIFE

Thanks to an optimised circuit board combined with high-quality electronic components and software-controlled energy management, many of our energisers now offer significantly longer battery life. The improved technology uses the available energy even more efficiently, enabling longer operating times – **saving not only time but also costs**. This allows you to benefit from maximum performance with reduced energy consumption.

trapper® AN45

- Maximum voltage 7,900 volts, 0.8 joules input, 0.45 joules output
- Ideally suited for small fences at home, for yards and for gardens
- Dual power energiser – 230 V mains power or 12 V battery
- Solar operation possible
- Power Control - activity indicator on the energiser
- Integrated power saving circuit and deep discharge protection

Item No. 10867

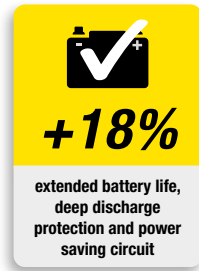

trapper® AN120

- Maximum voltage 8,600 volts, 2.4 joules input, 1.2 joules output
- Ideal for simple pastures up to 12 km in length
- Solar operation possible
- Dual power energiser – 230 V mains power or 12 V battery
- Power Control - activity indicator for the energiser
- Integrated power saving circuit and deep discharge protection

Item No. **10865**

KUBE ARGUS® 300 ABN

- Maximum voltage 11,600 volts, 0.4 joules input, 0.3 joules output
- Ideal for calm grazing animals and fence lengths up to 5 km
- Integrated power-saving circuit and deep discharge protection
- Eco-Power for lower power consumption and reduced costs

Item No. **10910**

KUBE ARGUS® 600 ABN

- Maximum voltage 11,600 volts, 0.75 joules input, 0.6 joules output
- Ideal for calm grazing animals and fence lengths up to 6.5 km
- Integrated power-saving circuit and deep discharge protection
- Eco-Power for lower power consumption and reduced costs

Item No. **10920**

OPTIMAL HERDING SECURITY

WITH THE POWER OF THE SUN

FRESH LOOK, IMPROVED FEATURES

Our farmer® AS50, trapper® AS25 and farmer® AS180 solar energisers now feature a new colour design. The solar panel has also been redesigned and impresses with a new, UV-resistant surface. Inside, an improved circuit board with additional power saving circuit and deep discharge protection ensures even greater efficiency and reliability in daily use.

farmer® AS50

- Maximum voltage 11,000 volts, 0.65 joules input, 0.5 joules output
- Ideal for calm grazing animals and fence lengths up to 11 km
- Includes solar module and 12 V battery as a compact unit with integrated solar charge controller
- Integrated power saving circuit and deep discharge protection
- Intuitive Energy Control LED display

Item No. **144851** (Available from January 26)

trapper® AS25

- Maximum voltage 9,000 volts, 0.33 joules input, 0.25 joules output
- Ideal for calm grazing animals and fence lengths up to 5 km
- Includes solar module and 12 V battery as a compact unit with integrated solar charge controller
- Integrated power saving circuit and deep discharge protection
- Intuitive Energy Control LED display

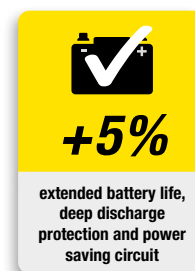

Item No. **149821** (Available from January 26)

farmer® AS180

- Maximum voltage 10,000 volts, 2.5 joules input, 1.8 joules output
- Powerful solar-powered energiser system
- Ideal for fence lengths of up to 14 km without vegetation
- Compact unit consisting of energiser and 24 W solar module
- Integrated power saving circuit and deep discharge protection

Item No. **109191** (Available from January 26)

MAKING OPTIMAL USE OF SOLAR ENERGY

STRONG NETS FOR ANY APPLICATION

OUR NETTING-HIGHLIGHTS

VISIBILITY THAT PROTECTS

The new sheep net with blue and white strands ensures high visibility in the pasture. The blue signal color is easily recognized by wild animals and increases the deterrent effect—for optimal protection of your animals.

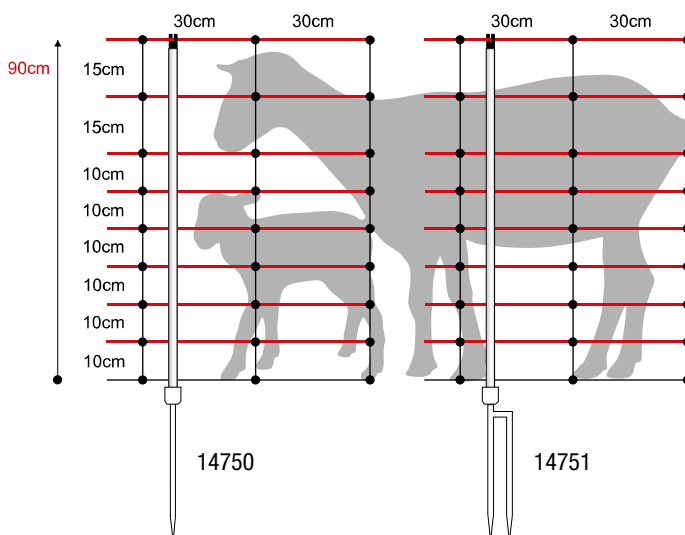

**Eye catching and functional:
now available in blue and white**

HORIZONT SHEEP NET KOMBI

- **Dimensions:** 90 cm high, 50 m long
- **Lower mesh size** 10 cm x 30 cm
- **High visibility** thanks to blue and white color scheme **for greater safety**
- **Excellent stability** thanks to rigid verticals
- Effortless assembly thanks to a low weight of only 6 kg
- Durable and resistant thanks to robust construction
- Practical repair kit included in scope of delivery

90 cm Single spike Color: Item No. **14750** Available from 02/2026

90 cm Double spike Color: Item No. **14751** Available from 02/2026

UP TO 200% HIGHER CONDUCTIVITY FOR MAXIMUM PERFORMANCE

Many of our pasture netting products now feature improved conductivity. This ensures even more reliable herd safety.

**RECOGNIZABLE
AT A GLANCE**

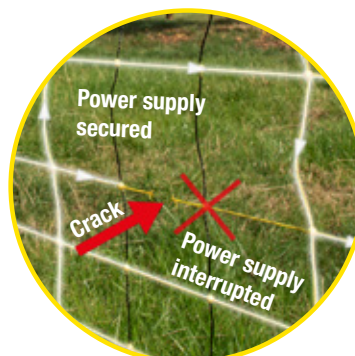

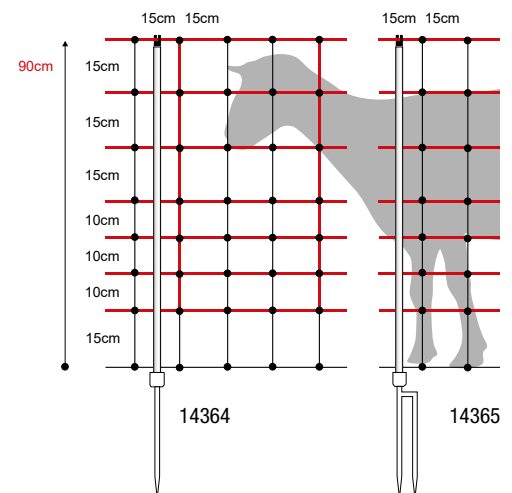

VERTICAL SHEEP AND GOAT NET

- Dimensions: 90 cm high, 50 m long
- NEW: improved conductivity
- Lower mesh size 15 cm x 15 cm
- High conductivity for optimum herd safety
- Dual safety thanks to vertical power routing- if one strand breaks, the power supply is still guaranteed
- High-quality posts for high stability
- High-quality copper conductors

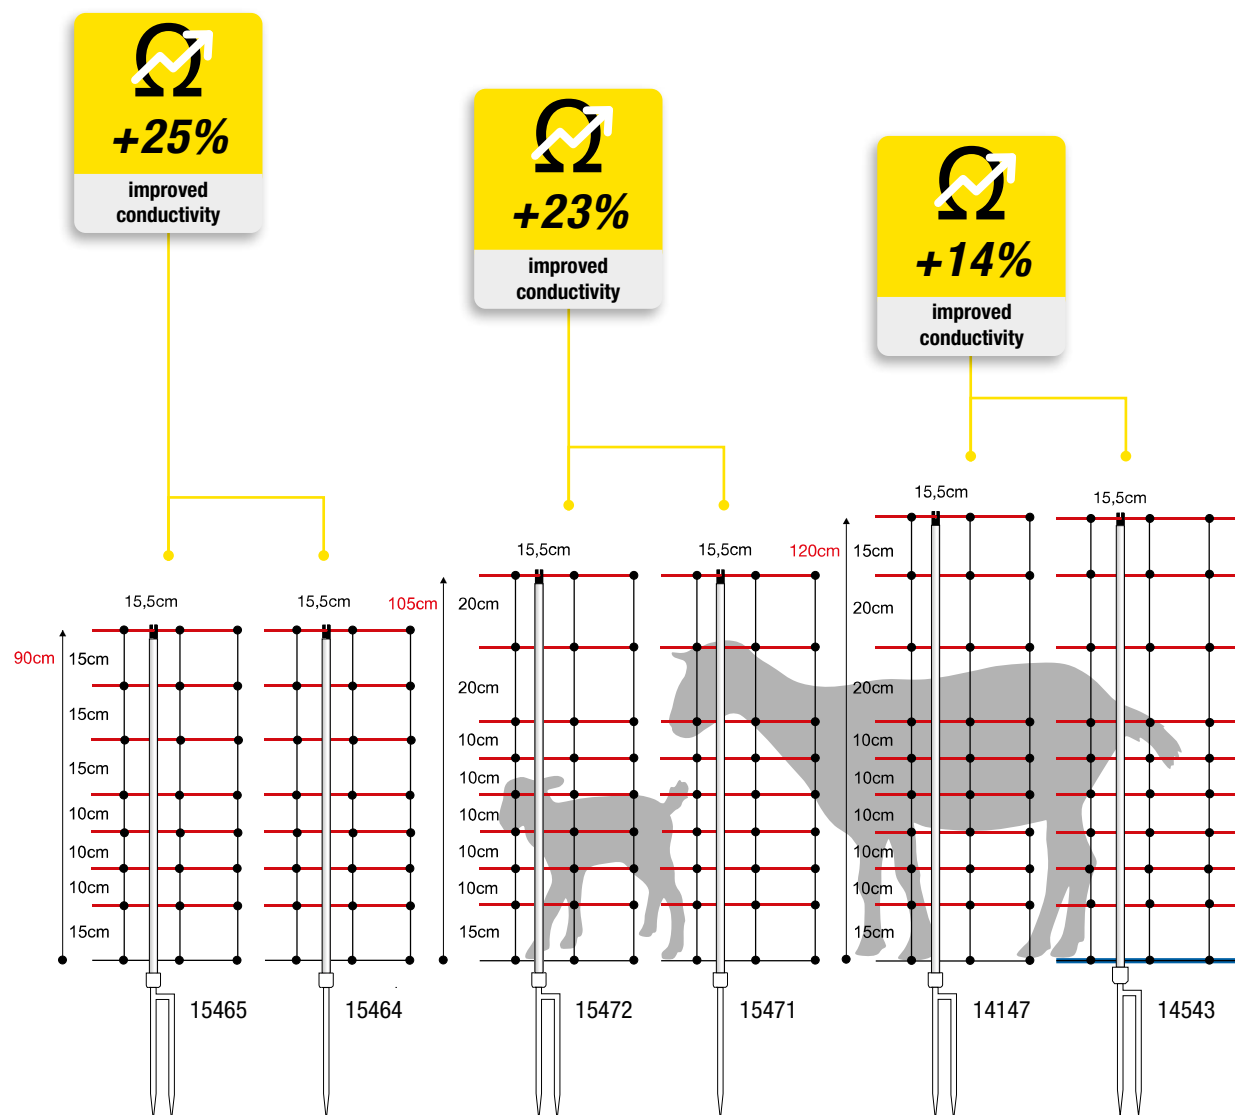

90 cm Single spike Color: ●● Item No. **14364**

90 cm Double spike Color: ●● Item No. **14365**

Vertical power routing

horizontal and vertical power routing strands ensure a continuous power supply even in the event of a break.

Note — The additional grounding conductor ensures good grounding even in dry conditions.

HORINETZ SHEEP AND GOAT NET

- Dimensions: 90 / 105 / 120 cm high, 50 m long
- **NEW: improved conductivity**
- Lower mesh size 15 cm x 15.5 cm
- High load capacity possible
- Suitable for wolf defense
- Quick and easy to set up
- 14 x plastic posts with single or double spikes

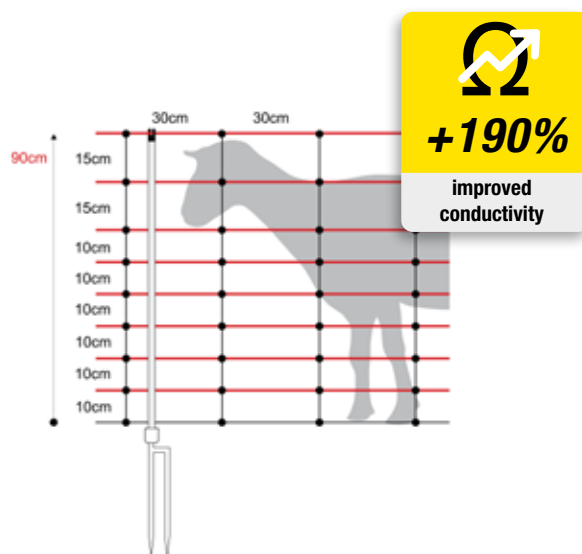

90 cm	Double spike	NEW: 0,920 Ω / m	Color: ●●	Item No. 15465
90 cm	Single spike	NEW: 0,920 Ω / m	Color: ●●	Item No. 15464

SHEEP NET TURBOMAX EXTRA

- Dimensions: 90 cm high, 50 m long
- **NEW: improved conductivity**
- Lower mesh size 10 cm x 30 cm
- Particularly high stability thanks to rigid vertical connections
- Reinforced top and bottom strands for high load capacity and stability
- Safe protection even for small lambs
- 14 x plastic posts with double spikes

90 cm Double spike **NEW: 0.100 Ω / m** Color: ●○ Item No. 15219

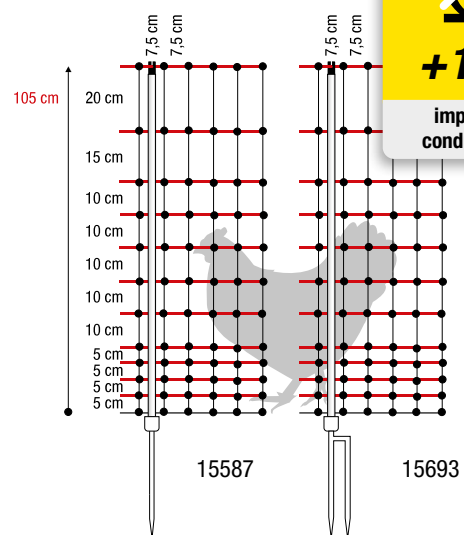

ranger®
POULTRY NET 105 CM

- **Dimensions: 105 cm high, 50 m long**
- **NEW: improved conductivity**
- **Lower mesh size 5 cm high and 7.5 cm wide**
- **High-quality posts for high stability**
- Ideal for poultry, dogs, cats, and other small animals, as well as for home and garden applications
- Optimal visibility thanks to striking yellow color

105 cm Single spike **NEW: 0,670 Ω / m** Color: ●● Item No. **15587**

105 cm Double spike **NEW: 0,670 Ω / m** Color: ●● Item No. **15693**

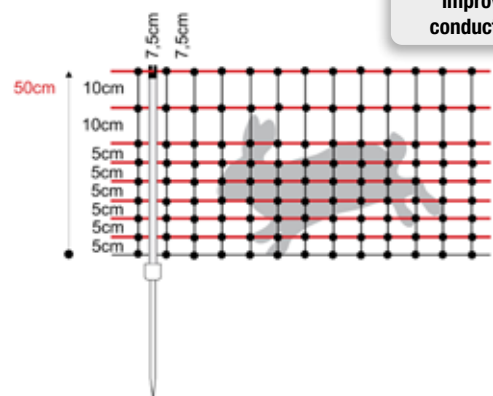

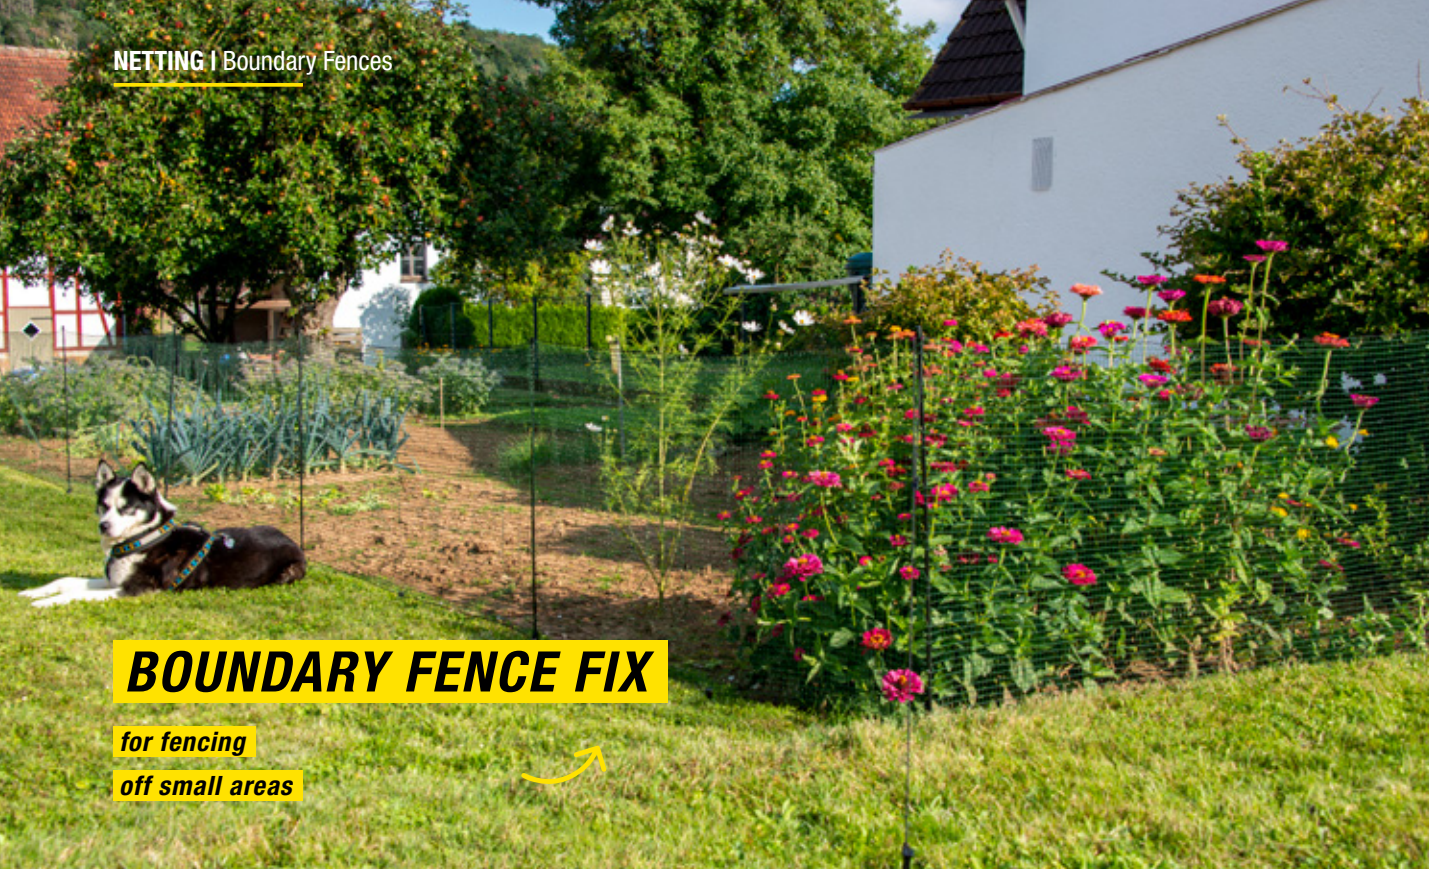

farmer® SMALL ANIMAL NET

- Dimensions: 50 cm high, 25 m long
- NEW: improved conductivity
- Lower mesh size 5 cm high and 7.5 cm wide
- Quick and easy installation
- Close mesh spacing for special protection of your animals
- horizont quality with high-grade stainless steel conductors
- High-quality posts for excellent stability
- Scope of delivery includes a free repair kit

90 cm Single spike **NEW: 0.920 Ω / m** Color: ● Item No. 15195

BOUNDARY FENCE FIX

**for fencing
off small areas**

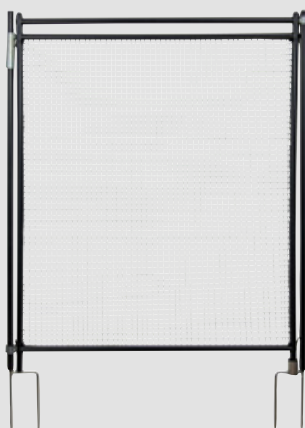

BOUNDARY FENCE FIX

- Dimensions: 90 cm high, 25 m long
- Color: green
- Mobile fence for gardens, camping, and small animals
- Ideal for fencing off areas or creating boundaries
- 15 integrated fiberglass posts (+2 additional posts)
- Small mesh size of 17 x 17 mm
- Easy to assemble and dismantle

Item No. **14693**

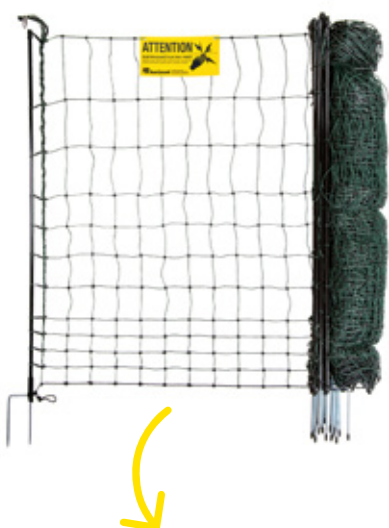

SUITABLE WITH:

HOTGATE - GATE FOR BOUNDARY FENCES

- Suitable for nets up to 90 cm high
- Gate width 81 cm
- Color: black
- Quick and safe passage to your pasture
- Sturdy posts with double tips for secure support
- Gate can be mounted at any position on the net
- Small mesh size of 17×17 mm for reliable protection

Item No. **14697**

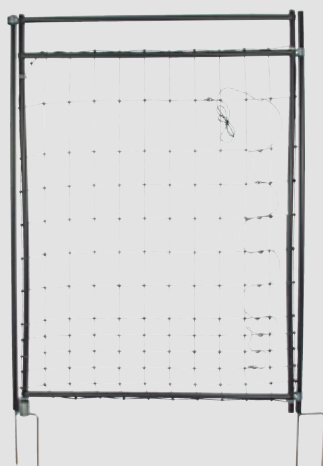

POULTRY NET farmer®

- Dimensions: 110 cm high, 50 m long
- Color: green
- High conductivity for optimal herd safety
- 15 integrated fiberglass posts (+2 additional posts)
- Small mesh size prevents animals from slipping through
- Stable even on hilly terrain or uneven ground
- Scope of delivery includes a comprehensive service set

Item No. **14654**

SUITABLE WITH:

HOTGATE - GATE FOR POULTRY NETTING

- Suitable for nets up to 120 cm high
- Gate width 86 cm
- Color: green
- Robust and stable thanks to high-quality PVC posts with double spikes
- Additional protection and security through electrification of the gate
- Specially designed for use in poultry pastures
- Scope of delivery includes connection and joining accessories

Item No. **14665**

T-POST ECO – THE DURABLE AND STABLE SOLUTION FOR PASTURE FENCING

1,52 M | 1,67 M | 1,82 M

- Durable and stable alternative to wooden posts
- Made from robust rail steel
- Environmentally friendly, high-quality dip coating for surface protection
- Ideal for farmers and livestock owners
- Slim T-profile with solid anchor plate for high stability
- Can be driven into the ground effortlessly with a hand ram up to the base plate
- Extremely stable in the ground
- Particularly suitable for wolf-proof fencing
- Flexible use as corner, section, gate, start, or end post

ROPE INSULATOR FOR T-POSTS

Item No. 145621

- Universally applicable
- Quick and easy installation
- Secure hold
- 25 pieces per bag

TAPE INSULATOR FOR T-POSTS

Item No. 145641

- Precise fit and secure hold
- For straps up to 50 mm wide
- Robust and durable
- 25 pieces per bag

RING INSULATOR FOR T-POSTS

Item No. 145681

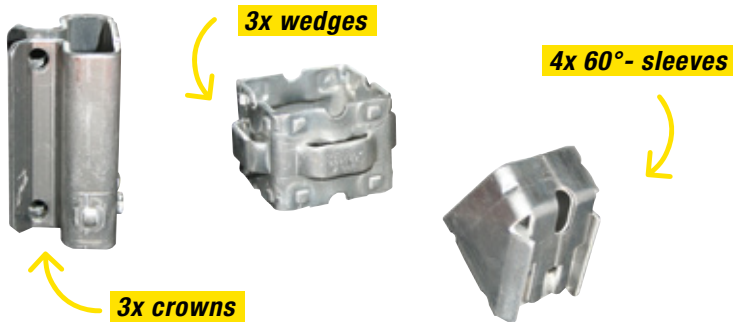

- Versatile application
- Easy installation
- Precise fit and secure hold
- 25 pieces per bag

T-POSTS ACCESSORIES

WEDGE-LOC BRACING PARTS FOR FENCE CORNERS

- Quick installation of fence corners, section reinforcements and gate posts
- High stability thanks to the truss system with T-posts
- Reusable: easy to dismantle and reuse elsewhere
- Lightweight, durable aluminium
- Set consists of: 3x crowns, 3x wedges, 4x 60° sleeves

Item No. 14569

NEW

POST DRIVER FOR T-POSTS

- Ideal for installing T-posts
- Ergonomic handles for comfortable working
- Efficient even on difficult terrain

Item No. 14557

EXTRACTOR FOR T-POSTS

- Easy removal of T-posts
- Long lever for reduced effort
- Base plate for additional support

Item No. 14558

ELECTRIC FENCE WIRE turbomax® W12

- 200m
- Highest conductivity for maximum security
- Thanks to the black monofilament, the human eye perceives the wire less visually in the environment
- Perfect for pastures, gardens or properties where the fence should not be conspicuous

Discreet solution

Black monofilaments make the wire virtually invisible

Item No. 17142SW

NEW

THE INCONSPICUOUS ELECTRIC FENCE SOLUTION

ELECTRIC GRASS

Our electric grass offers an innovative solution for temporary or inconspicuous fencing. Ideally suited for protecting flower beds, shrubs, and ornamental plants in gardens or parks - as well as serving as a flexible barrier for smaller animal areas in zoos and wildlife parks. With its natural appearance, the system blends harmoniously into its surroundings while providing a reliable electric deterrent.

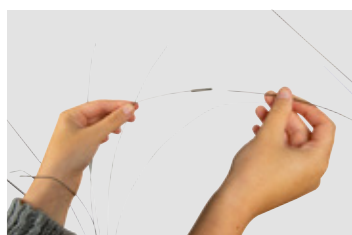

HOW IT WORKS:

- Works like a classic electric fence – with conductive steel stalks
- Unobtrusive, natural design blends in perfectly with any environment
- Easy to set up: connect the grasses without special tools, crimping pliers are sufficient
- Flexible and mobile: easy to assemble and disassemble thanks to the internal thread in the ground anchor (M6)
- Adaptable to terrain and location
- Protective caps on the blades for safe handling
- Ideal for temporary fencing or areas with high design requirements

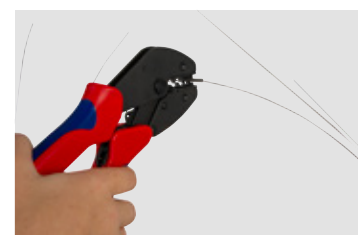

Optimally combinable

with the energiser trapper AS25
(page 7)

Grasses can easily be bound together by hand

for quick and easy installation

Secure the connection of the grasses with crimping pliers

no special tools required,
stable and reliable

EVERYTHING FOR

HOBBY POULTRY FARMERS

PLASTIC CHICKEN COOPS

Sturdy, weatherproof and practical – the perfect coop for 4–8 chickens. Thanks to the recycled plastic and raised design that protects against pests, Harmony chicken coops fit perfectly into your garden. The smooth surface offers no hiding places for pests and is easy to clean.

CHICK'A® CHICKEN COOP HARMONY

NEW

- Ideal for beginners and hobby farmers with 4–8 chickens
- Made from 70% recycled plastic – sturdy, weatherproof and with a 7-year guarantee on plastic parts
- Raised design to protect against pests and moisture

Chicken coop for up to 4 chickens Item No. **38CHI595500**
 Chicken coop for up to 6 chickens Item No. **38CHI595501**
 Chicken coop for up to 8 chickens Item No. **38CHI595502**

External nest

For easy egg collection

Raised construction

Does not provide shelter for pests

WOODEN CHICKEN COOPS

Thanks to their natural appearance, these wooden houses blend into any garden environment while offering impressive durability and stability. With their well-thought-out design, practical details and ample space, these chicken houses with aviaries are suitable for up to 12 chickens.

CHICKEN COOP NORWAY

- Suitable for up to 12 chickens
- Overall dimensions: 190 cm (W) × 245 cm (L) × 190 cm (H)
- Spacious, raised shelter with convenient ladder for easy access
- Laying nest with hinged door for easy and safe egg collection

Internal nest

Features an outside flap for egg collection

Item No. 38595424

CHICKEN COOP OSLO

- Suitable for up to 12 chickens
- Overall dimensions: 195 cm (W) × 278 cm (L) × 180 cm (H)
- Spacious coop with a sheltered retreat and a large outdoor run
- Laying nest with 3 compartments, easily accessible from the outside

External nest

With 3 compartments and access flap

Item No. 38595403

AUTOMATIC CHICKEN COOP DOOR

Protection for the chickens and convenience for the owner are combined. The chicken flaps open and close automatically, so your chickens have access to the run during the day and can rest safely in the chicken coop at night, protected from predators.

AUTOMATIC CHICKEN COOP DOOR OPENER

- Automatic control via light sensor – opens and closes the flap depending on daylight
- Individual control via timer – opening and closing possible at the desired time
- Control via timer and light sensor can be combined
- Integrated safety function prevents your chickens from getting trapped

Item No. **38595614**

Vertical opening

ideal for Harmony chicken coops

Flexibly expandable

with matching solar panel or power supply unit

Suitable with:

POWER SUPPLY UNIT FOR AUTOMATIC CHICKEN DOOR

- 5 V power supply unit

Item No. **389595614001**

SOLAR PANEL FOR AUTOMATIC CHICKEN DOOR

- Power: 2 W
- With robust bracket
- Integrated batteries

Item No. **389595614002**

NEW

AUTOMATIC CHICKEN DOOR ALL-IN-ONE

- Maximum safety thanks to anti-pinch protection
- Dual power supply (battery and solar-powered rechargeable battery)
- Light sensor: Automatic opening and closing in daylight
- Timer: Control via set times
- Mix mode: Combination of both functions for maximum flexibility

Item No. **38595614001**

Horizontal opening

ideal for low stables and tight spaces

NEW

All-in-One

with integrated solar panel and built-in lithium battery

DIATOMACEOUS EARTH (3 KG)

- Non-toxic for humans
- Can be used indoors as well as outdoors
- Perfect for disinfecting, drying, and eliminating odors

Item No. **38000700300**

PROBIOTIC FEED SUPPLEMENT FOR POULTRY (360 G)

- Natural probiotics to promote intestinal health
- Improves the laying performance
- High-quality ingredients

Item No. **38001700**

COCONUT LITTER (100 L)

- Environmentally conscious and sustainable
- High absorbency and effective odor neutralization
- Coarse structure for a soft, well-ventilated surface

Item No. **38000800**

PLASTIC LAYING NEST “MYCOZYNEST” FOR CHICKENS

- Undisturbed, protected laying area in a modern design thanks to a blackout curtain that reduces the incidence of light
- Easy egg removal due to good handling
- Easy installation thanks to wall mounting

Item No. **34860**

OPTIMUS PLASTIC POULTRY DRINKER / TWO-PART TANK / 25 L

- The two-part design makes it easy to clean the drinking trough from the inside
- Special color pigments prevent light from entering the tank and prevent algae growth
- Robust construction: stable base and rustproof brass valve with shut-off tap

Item No. **34861**

NEW

CHICKEN FEED TROUGH WITH VELCRO FASTENING

- Innovative velcro fastening system - quick, tool-free attachment to fences, stables or trees
- 100% recycled materials

Item No. **34863**

EVERYTHING FOR

CLAW CARE

NEW

ELECTRIC CLAW SHEARS I INCLUDES 2 BATTERIES

- Precise and clean hoof trimming for sheep
- Compact, lightweight, and particularly easy to handle
- Long runtime thanks to 2 powerful batteries
- Brushless motor for efficiency and durability
- 2-in-1 function – hoof trimmer and shrub shears in one tool
- Comes complete in a case – ready for immediate use

Item No. **38106615100**

NEW

REPLACEMENT BLADE FOR ELECTRIC HOOF TRIMMING SHEARS

- Easy to use – quick change without much effort
- Safe cut – reduces the risk of injury to animals and users
- Durable – high-quality materials ensure reliable use

Item No. **38106615200**

NEW

REPLACEMENT BATTERY FOR ELECTRIC CAMPAGNOLA SHEARS I 2,5 AH

- Long running time
- Quickly ready for use again
- Compatible & flexible

Item No. **38106615300**

LUBRICATING GREASE SPRAY FOR ELECTRONIC SHEARS / 200 ML

- Extends the service life of the blades
- Provides reliable protection against water, dirt, and abrasion
- Ensures smooth and effortless cutting
- Easy to use

NEW

CLAW ADHESIVE FOR CATTLE

Our SEPTICARE II products make attaching blocks efficient, precise, and safe. The high-quality claw adhesive SEPTICARE II BOND EXPRESS impresses with its strong adhesion to any surface and is particularly easy to apply thanks to the XL II dispenser gun and precisely fitting cannulas. Whether in the barn or on the go, the system is perfectly coordinated and ensures clean, fast application with optimal results.

SEPTICARE XL II BOND EXPRESS GUN

- Gun for applying XL format adhesive SEPTICARE II BOND EXPRESS
- Fits comfortably in the hand
- High-quality material

Item No. **38106652003**

SEPTICARE XL II BOND EXPRESS CANNULA

- Precisely tailored design: Developed for the 250 ml cartridge of SEPTICARE II BOND EXPRESS
- Uniform mixing and application: The cannulas enable precise dosing and perfect mixing of both components
- Practical bulk pack: Supplied in a set of 10 cannulas for regular use

Item No. **38106652002**

SEPTICARE II BOND EXPRESS ADHESIVE CARTRIDGE

- Practical 250 ml cartridge, ideal for up to 10 blocks
- Long-lasting: 2-year shelf life from date of manufacture
- Versatile: Adheres to any surface
- Application temperature: From 0 °C, easy to store and use

Art.-Nr. **38106652001**

USEFUL PRODUCTS FOR

HOME & GARDEN

Darkness activates the device

Effective defense

Thanks to highly effective ultrasonic signals

Mounting plate

for easy installation and removal for charging

RACCOON REPELLENT ULTRASOUND

- Repels raccoons and other pests in attics, gardens, and garbage cans
- Intelligent light sensor – activates the device only in darkness (< 4 lux), thus saving energy and avoiding disturbances during the day
- Ultrasonic technology – unpleasant for raccoons, but harmless
- Long-life battery with up to 40 days of runtime and rechargeable via USB-C

Item No. 34862

EXPLORER TOWER LAMP I 6000 LUMEN

- 6000 lumen brightness
- 3 lamp heads, individually positionable
- 3 brightness and color temperature settings
- With USB-C charging cable, charging indicator, and practical carrying bag
- Flexible attachment thanks to magnetic and hook mount

Item No. 47TL6000

NEW

ELECTRIC GARDEN SHEARS WITH RECHARGEABLE BATTERY

- Compact and ergonomic – easy to use
- High performance even with thicker branches up to 32 mm in diameter
